

FEATURES & BENEFITS

- ✓ Extreme Pressure (EP) /Anti Wear (AW) additives
- ✓ Oxidation Inhibitors and Acid Neutralizers
- ✓ Rust and Corrosion Inhibitors
- ✓ Viscosity Index (VI) Improvers
- ✓ Dispersants
- ✓ Seal Conditioners

HDL90 improves fuel economy

HDL90 dramatically reduces component wear

HDL90 cleans and keeps equipment operating at peak performance

Adding years of life to your equipment and vehicles

Universal for: ✓ Gears ✓ Gas Engines ✓ Diesel Engines

Sustainable Performance

Dyno Performance Test
2018 Ford F150 Gasoline

Without HDL90 = 263 HP
With 5% HDL90 = 269 HP
(2.3% improvement)

Dyno Performance Test
Kubota Diesel Tractor

Without HDL90 = 148 HP
With 5% HDL90 = 154 HP
(4% improvement)

Component Wear by Oil Analysis

Diesel Trucking Unit 132
Front Differential after 54,190kms
Without HDL90 = 253 Wear Metals
With 5% HDL90 = 48 Wear Metals
(81% reduction)

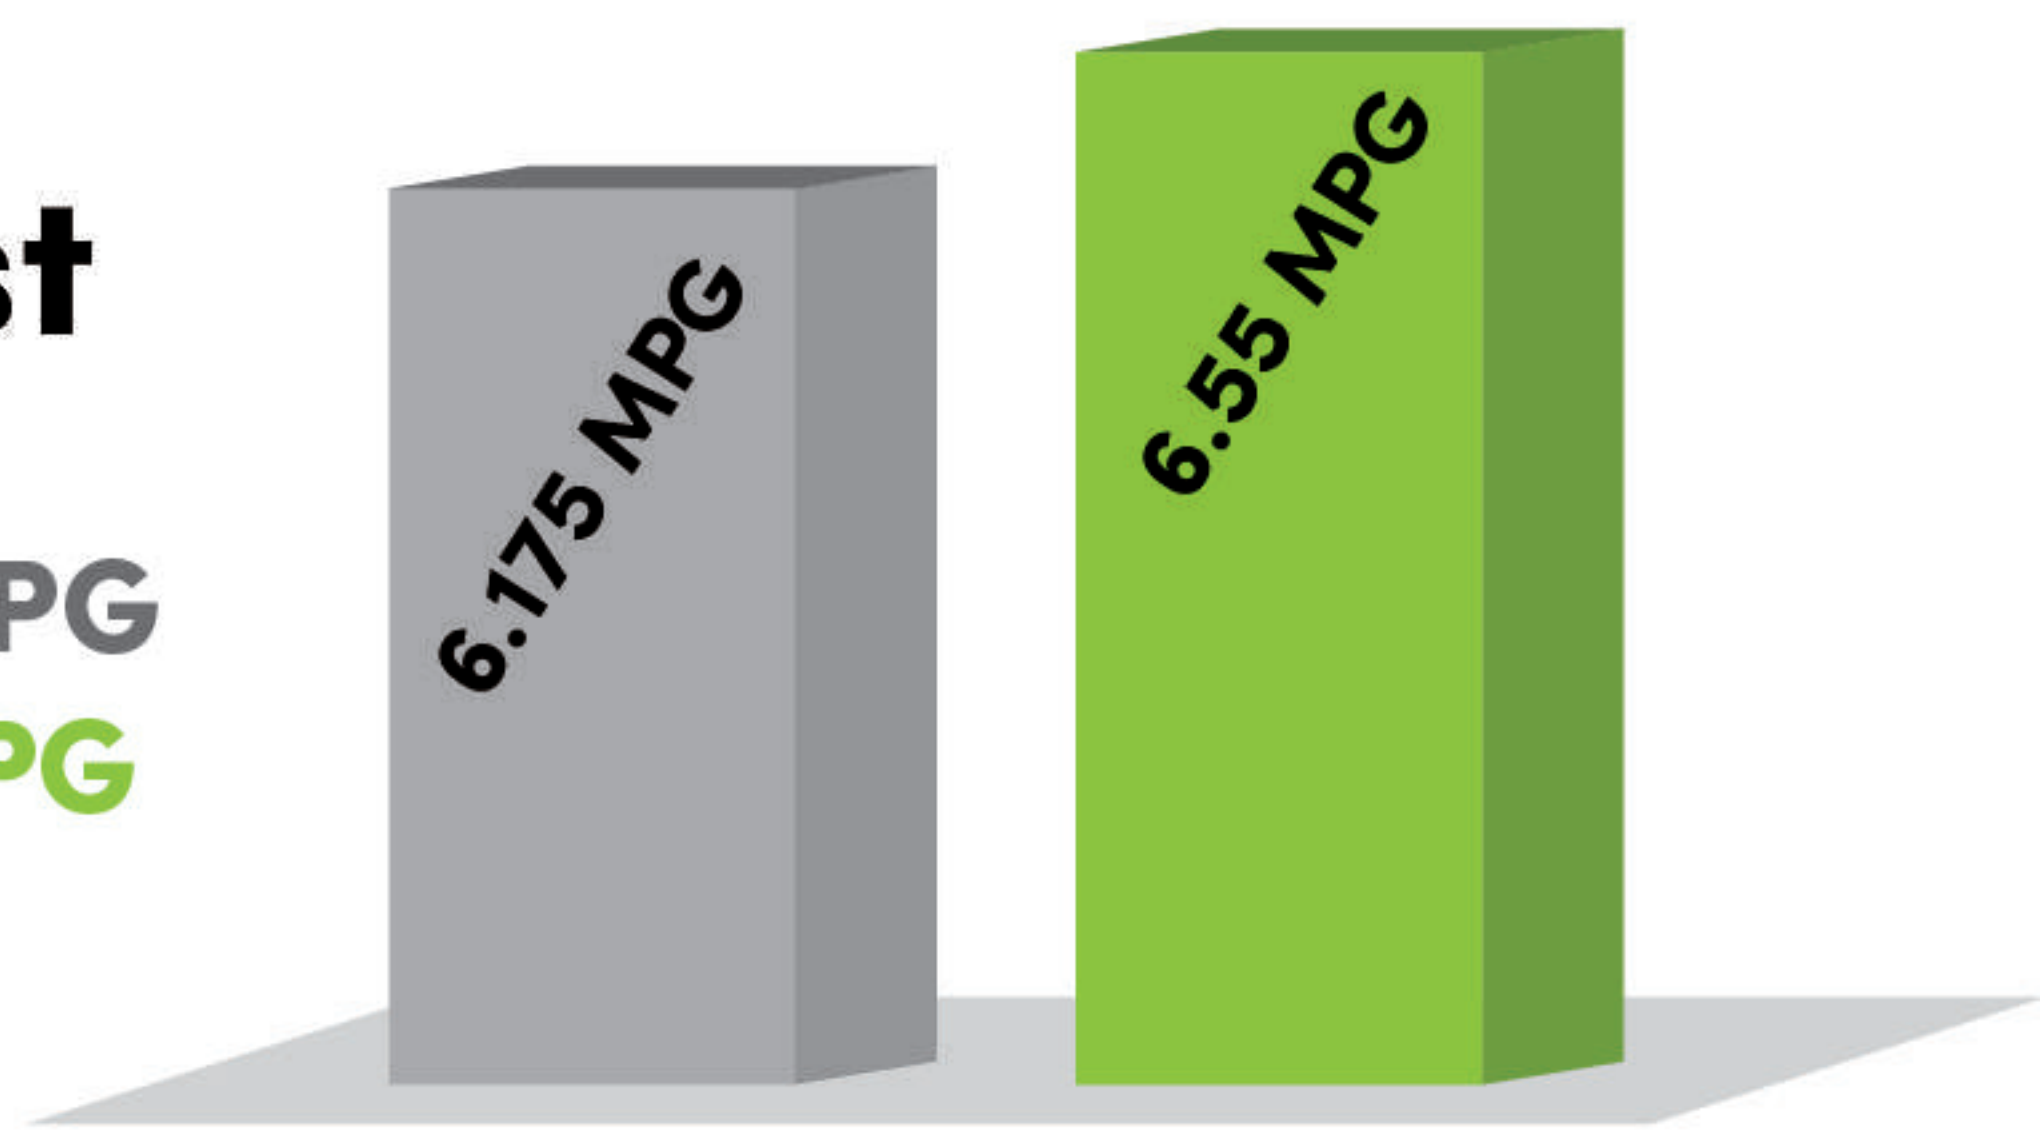

Component Wear by Oil Analysis

Diesel Trucking Unit 140
Engine Oil after 78,000kms
Without HDL90 = 1168 Wear Metals
With 5% HDL90 = 370 Wear Metals
(68% reduction)

Fuel Savings Test

Diesel Trucking Unit 132
Without HDL90 = 6.175 MPG
With 5% HDL90 = 6.55 MPG
(6% improvement)

HDL 90 combined with oil analysis is a winning combination to measure cost savings

Environmental Benefit

UNIVERSAL ADVANCED SYNTHETIC OIL ADDITIVE

HDL90

Universal for: ☒ Gears ☒ Gas Engines ☒ Diesel Engines

Manufactured to ISO 9001:2015 specifications.

FEATURES & BENEFITS

Extreme Pressure (EP)/Anti Wear (AW) additives:

Polarized AW, Friction Modifier and EP components provide unequalled protection in high load, high friction conditions. HDL90 remains on metal services protecting start up conditions where 80% of wear is generated.

Oxidation Inhibitors and Acid Neutralizers:

Enhanced alkaline reserve prevents oil breakdown during service life.

Rust and Corrosion Inhibitors:

Protects against adverse effects of moisture and oil oxidation.

Viscosity Index (VI) Improvers:

Enhanced VI maintains lubricant flow and improves shear stability of the oil, especially at extreme temperatures.

Dispersants:

Maintains cleanliness and keeps contaminants in suspension.

Seal Conditioners:

Reduces the long-term effects of heat exposure to elastomer seals, keeping seals pliable.

INTRODUCING THE NEW SYNTHETIC FORMULA HDL90

UNIVERSAL USE Oil additive for

☒ Gears ☒ Gas Engines ☒ Diesel Engines

Increased Performance

Reduced Component Wear
