

# PREMIUM UNIVERSAL GREASE

## FEATURES & BENEFITS

### Extreme Pressure

Excellent Friction and wear metal reductions in the boundary lubrication regime - 10x that of competitors in testing

### Water Wash Out

Will not wash out under wet and or contaminated conditions

### Long Life

No chance of oil separation means longer life. ASTM test D3336 showed 220Hrs better than Lithium, 380Hrs better than Polyurea, 710Hrs more than Aluminum

### Compatibility

Compatible with most universal greases including Lithium, Calcium and Polyurea

### Extreme Temperature protection

Broad operating range -35 to 250c. Good pumpability in cold weather - passes -40c ASTM Torque Test

  
Made in Canada

Manufactured to ISO 9001:2015 specifications.
